Vendor Application

17th Annual Pasty Fest
Saturday, August 21st, 2021
Noon-4pm

Pasty Fest is a single day event that celebrates the Cornish food staple, the pasty, which sustained Copper Country miners 100 years ago and satisfies hungry Yoopers today. Pasty Fest is also a fund-raising event, to support the efforts of Main Street Calumet throughout the year. The day includes a parade (2pm), live music and performances, street fair on 5th Street, a pasty bake-off and games for the kids! It's a great opportunity to get your product in front of hundreds of potential customers!

PASTY BAKE-OFF COMPETITION

This year's bake-off event will be for *commercial participants only* (same as the past 2 years). We ask each vendor to provide 100, ~4 oz. pasties (should be about 4 bites each). Main Street Calumet will then discretely label each pasty (using colored toothpicks) and sell one small pasty from each vendor in a kit/box. Attendees will then purchase a box, taste all pasties and pick their favorite, voting by returning the toothpick to the Main Street booth. This will allow at least 100 members of the public to test your pasty alongside your competitor's. We will tally votes and announce the winner towards the end of the day. There will be a prize and bragging rights for the winner of this competition!!

Please drop-off pasties by 10:30am at Main Street booth, located near other pasty vendors.

ELECTRICAL WORKSHEET

If electrical access is desired please complete the following chart to determine electrical needs. Because we do not have unlimited electrical access we need you to fill out the chart completely. Most people say, "I just need one plug", the problem is that while you only need one plug, we need to know if we can put more than one vendor on a single **circuit**. Have you ever plugged in too many things in the kitchen at once and blown a fuse/tripped a breaker? You've overloaded the **circuit**. This is what we're trying to avoid. By calculating each vendors power needs we can distribute usage over enough circuits so that we have no tripped breakers, and no cold pasties.
